

MODEL# AFC 200
AUTOMATIC FRESH CREPE MACHINE

AFC200 is our high capacity producer of thin and tender dough for round or squared crepes. The the crepe skins come out pre-cooked and ready to be filled if desired. The machine takes over 1 gallon (~10 lbs) of batter to make up to 200 skins. It has control settings to make separate skins or a continues strip cut to any desirable length. Conveyor and parts are conveniently removable for cleaning or storage. High accuracy heat/ temperature controller with digital display.
