

MODEL# AMS 601
AUTOMATIC MANICOTTI MACHINE

The AMS601 automatic manicotti system is a modified version of model the AFC200 fresh crepe machine combined with our AFD1002 heavy duty filling depositor equipped with 8 foot neoprene belted conveyor. This Manicotti Machine produces up to eight finished pieces of manicotti per minute (500 pieces per hour). It is reliable, easy to operate and with minor modifications this unit can produce crepes and blintzes too. We manufacture and assemble manicotti, crepe as well as food filling depositor machines here in US, Farmingdale, NY.

-
