

PASTA SHEETR-CUTTER SC 802

This machine is favorite of every restaurant's chef who makes fresh pasta!

American made heavy duty, stainless steel pasta sheeter [roller] / cutter with three fixed, machined steel cutting blades is reliable, fast, safe and easy to operate. Used for kneading, sheeting and cutting dough with different width for Angel's Hair, Linguine, Fettuccine, Noodles, and Pappardelle pasta.

Exclusive, patented removable comb system for easy cleaning without the use of tools. Fixed cutting rollers driven simultaneously - no time lost in production with changing of heads. This machine can be used for years of maintenance-free service.

FEATURES:

- Stainless steel sheeting rollers
- Hardened steel roller drive gears provide years of trouble free service
- Positive indexing dough thickness calibrating knob with seven settings
- 1/4 HP oilbath gear motor with roller chain drive
- All moving components run in permanently sealed and lubricated ball bearings
- Standard USA drive components used throughout
- Production capacity 50 Lbs/hour

Supplied with standard cutters: Angel Hair (1.5mm), Linguine (3mm), Fettuccine(6mm). Custom widths dies are also available
